FINANCIAL AND COMMERCIAL.

WEDNESDAY, Oct. 14-6 P. M. The result of the elections in Pennsylvania, Ohlo, Indiana and Nebraska took Wall street alike with the country at large somewhat by surprise this morning; for although republican majorities in two of those states were expected, the others were regarded as loubtful. The operators in gold had previously over-discounted republican successes, and hence the market for that commodity yielded only % per cent at the opening, the lowest price touched having een 136%, against 137% at the close last evening nd this was before ten o'clock. The earliest tran at three o'clock were from 186% to 137%, the latter being the closing price. Subsequently there was an advance to 138%, under the effect of a false despatch oting in Pennsylvania showed a democratic maority of five thousand, and the latest sales were at 13s. There was an active borrowing demand for coin, and loans were made at 1-16, 5-64, 3-32, 14, 7-64, 3-16, 14, 1-64, 3-64 d 1-32 per cent per diem for borrowing. At five clock coin was offered on loan to-morrow at 3-16 er cent per diem. There was much activity in the as covered. The gross clearings amounted to 00, the gold balances to \$4,004,929 and the balances to \$2,940,135. The Cunard steamer ok out no specie, and the Sub-Treasury disbursed in coin in payment of interest on the he debt. The fact of the leading draw-having advanced their rate for sterling aty days to 100% contributed to sustain the gold rket in the face of political events which render election of General Grant to the Presidency tainty. But this advance is owing in rt to the "short" interest in exchange, bills havg been largely borrowed both by the regular dealand importers. The Treasury, which sold \$ 50,000 in coin to-day, will continue to sell the same amount daily until three millions disposed of, but the Gold Room has prepared itself for this. Nevertheless the aspect of political affairs has changed so decidedly in favor of e bears within the last twenty-four hours that it will be strange if they do not push their advantage and force a further decline in the absence of any new and disturbing influences. The price varied as follows at intervals:-

0:09 A. M. 187 2:00 P. M. 187 4:00-04 A. M. 186 4:15 P. M. 1334 2:40 P. M. 138 5:50 P. M. 138 The market for government securities was very strong and excited all day and prices experienced an advance of 34 a 34 per cent, the five-twentles of 1867 being in particularly good request. At the close the following quotations were current and the ten dency of all the issues was strongly upward:-Registered, 1881, 113% a 113%; coupon, 1881, 114% a 115; 5-20's, registered, 1862, 105 % a 105 %; do., coupon, 1862, 113 a 113 %; do., 1864, 111 a 11 %; do., 1865, 111 % a 11114; do., 1865, January and July, 109% a 109%; do., 1867, 109% a 109%; do., 1868, 100% a 109%; 10-40°8, registered, 103% a 103%; do., coupon, 105% a 105%. Messrs. Jay Cooke & Co., in their circular, thus refer to the day's business:-

to the day's business;—

The market to-day was very strong and a disposition to take round lots of bonds of all issues. The '67's, as usual were the favorites, and before the board orders were in the street for the purchase of over half a million. The result of yesterday's elections has given confidence, not only to home investors, but also to foreign houses who all look for large orders for shipments. Some of the houses were buyers in anticipation of this and their purchases were in '64's and old '65's, and we find to-day that the banks and savings insututions are buyers. There is no reason now, with an easy money market, why bonds should not go back to the same figures as before the Democratic Convention when '67's sold at 110 ex July coupon, which counting the accrued interest makes them 2% cheaper now than then.

The general belief that the Presidential campaign

The general belief that the Presidential campaign is already virtually decided in favor of Grant was most felt in a practical shape in the market for our larger than it has been on any previous day for many came boidly in as buyers. But prices have as yet responded but little to the events of yesterday. far cheaper than any others on the Stock Exchange anticipation of an opposite result at the polls, and for bonds. On the Stock Exchange a very buoyant ulative feeling prevailed, and unusual excite dvance in prices, especially for some of the Western ares, was rapid. In Erie, too, there was a spasstock being meanwhile made artificially scarce for delivery; but the indications are that the large held off the market will be suddenly returned, perhaps to-morrow, for the purpose of breaking it down again, and that this advance is being promoted in order to get the street "long" of Eric and so to ren-

Money was in abundant supply at seven per cent to stock houses, but the transactions at six were exceptional, save on government securities. First class commercial paper, with from three to six months to run, is offered in moderate amounts and finds ready sale at seven per cent discount. There were several dry goods auction sales to-day at which the attendance was fair and the bidding satisfactory, few lots being passed, while many were duplicated. Western goods were taken with much avidity owing to the season, and they were particularly firm.

At the commencement of business the stock market was firm, and at the early session of the open board there was considerable activity and buoyancy in the dealings. Eric selling at 49%, Pacific Mail 128, and Mariposa preferred at stimulated by news from the Mariposa estate to the effect that the new dam is on the point of completion, after which the Benton mills will go into operation. At the first regular board the market was strong for the Western and steady for the New York railway shares, and on the call Michigan Southern closed % higher than at the same time yesterday, Cleveland and Toledo 1/4, Rock Island 1/4, Northwestern 214, do. preferred 314, Ohio and Mississippi 34, Quicksdeer 3%, Western Union Telegraph 36, Tennes see sixes, new issue, 134, and North Carolina sixes 34, while New York Central was 1/4 lower, Reading X, Cleveland & Pitisburg %, Fort Wayne %, Milwaukee and St. Paul preferred 1%, and Mariposa preferred %. Government securities were strong at an advance of % a % per cent. At the open board at one o'clock there was great activity in Erie, which advanced to 49. Northwestern preferred also sold up to 97%, Cleveland and Pittsburg to 90% and Mariposa preferred to 24. At the second regular board the market was active and steady, and on the call New York Central closed M higher than at the first regular board; Reading, %; Michigan Southern, M; Cleveland and Pittsburg, 1%; Cleveland and Toledo, %; Northwestern preferred, %; Fort Wayne, 14; Ohio and Mississippi, 14; Tennesses sixes, ex coupon, 1; new issue, 1, and North Carolina sixes, 1/4; while Milwaukee and St. Paul was 1/4 lower; Quicksliver, 1, and Mariposa preferred, %, Government securities were buoyant at a further advance of % a % per cent. At the open board at half-past three Eric sold up to 49%, New York Central, 129%; Cleveland and Pittsburg, 107%, and Pacitic Mail, 126. At the call these prices were not in all cases sustained, but the market continued active up to the close at ten minutes before six, when the following quotations were current, Erie being at the time the weakest stock on the list:—Pacific Mail, 125% a 126; Western Union, 3734 a 3734; New York Central, 12934 a 12934; Eric, 49 a 49%; Reading, 97% a 97%; Michigan Southern, 87% a 87%; Pittsburg, 90% a 90%; Rock Island, 107% a 107%; Northwestern, 97 a 97%; do. preferred, 97% a 97%; Port Wayne, 112% a 112%; Obio and Mississippi, 31% a 31%; Mariposa preferred,

The foreign exchange market continues strong, and the leading drawers have advanced their rate to 100% for their sterling, at sixty days. At the close bankers' bills on England, at sixty days, were quoted at 100% a 100%; at three days, 100% a 110%; commercial bills, 10814 a 10914; bankers' bills on Paris, at sixty days, 5.1634 a 5.15.

THE DRY GOODS TRADE.

There is decidedly more strength to the market for domestic cotton goods now than there was a week ago, and holders have no difficulty in obtaining full prices for all fabrics. The increased buoyancy and strength now obtaining is due almost exclusively to the greater firmness in the cotton market, which, as we have before had occasion to remark, virtually controls the dry goods market. The supply of goods being moderate—while some sorts are actually soarce—bolders required to the source of the source of the source of the control of the source of the control of the source of the lowest paying standard, and fe buyers demurto-day they take the goods to morrow, not being able to do better in one place than another. Apart from the efforts of certain jobbers to outvie all others in the amount of sales, and who cut down prices to the lowest paying standard in order to do so, and who in some cases sell certain goods at an actual loss, there have been no features of special interest in the market during the week. A good, even trade has been consummated from day to day, and the aggregate business shows, pretty heavy. All the leading muslim, both brown and bleached, have been fairly active, as have also most kinds of woolkens.

The manufacturing interest appear to be in a prespering condition, the dividends being generally large and the last tax exhibits in some cases immense. REAL ESTATE MATTERS.

Great Sale of Fort George Property-Large Attendance and Spirited Competition-Prices-Sale of Cherry Hill, New Jersey, Property-Particulars of Both.

The great sale of Fort George property, past of the estate of the late Isaac Dyckman, at the Exchange Salesroom yesterday, was in every respect a success, Salesroom yesterday, was in every respect a success, and marked an important era in the growth and progress of the city. For some time before the hour announced for the commencement of the sale—twelve o'clock noon—a crowd assembled in front of the auctioneer's stand, anxious to secure good positions for seeing and hearing everything that was going on and baing seen, gradually extending its limits by large accessions until the whole room was filled, the first arrivals getting upon chairs and other stands so as to be above the throng, and otherwise evincing an interest in the occasion strongly indicative of an eagerness to invest. The assemblage was a choice one, such as, perhaps, but few other descriptions of property could have brought together, and composed of the solid men of the city, of names well known "on the street," in commercial circles, in the political arena, among bankers and in the van of the city's progress and development. Once the sale was commenced it was rapidly proceeded with, the bidding being brisk

solid men of the city, of names well known "on the screet," in commercial circles, in the political areas, among bankers and in the van of the city's progress and development. Once the sale was commenced it was rapidly proceeded with, the bidding being brisk and spirited, the bidders numerous and eager and the auctioneer quick. Of the prices obtained, the list of lois, with locality and description, name of purchaser and amount at which each was disposed of, given below speaks for itself.

The property is so well known and has been so fully described aiready that any further general reference to it here is unnecessary. The following is contained in the terms of sale under which the property was put up:

Fifty per cent of the purchase money may remain on bond and mortgage for three years at the option of the purchaser, provided the purchaser give notice of his option on or before the 2d day of November next, and such bond to contain the usual covenants and power to sell, and to be prepared by the attorneys of the encutors at the expense of the purchaser, who shall at his own expense canae the proper stamps to be allied thereto, and to be executed in due form of law and delivered simulianeously with the deed.

This was the only sale at the Exchange yesterday; indeed no other sale could have conveniently been conducted, the interest in this being paramount.

At Chierry Hill, in Bergen county, N. J., ten miles from Forty-second street, New York, in the suburbs of the town of Hackensack, Messrs, A. D. Melick, Jr., & Co. disposed of a large tract of land there situated. There were about two hundred present, most of whom went from this city by special train provided by the owners of the property, and notwithstanding that it rained all the time, or perhaps because of it, the bidding was lively throughout. After about forty lots were disposed of the sale was adjourned for one week. Below are given prices and purchasers' names.
